1 Introduction

This is my first LaTeX document.

1.1 A Subsection

This is a subsection.

2 A Numbered List

1. First item
2. Second item
3. Third item

3 Science!

Einstein's famous equation is $e = mc^2$.

4 Equations and Citations

Einstein's mass–energy equivalence, $e = mc^2$, was published in *Einstein* [1905].

The Schrödinger equation [*Schrödinger*, 1926] is:

$$i\hbar\frac{\partial}{\partial t}\Psi(\mathbf{r},t) = \left[-\frac{\hbar^2}{2\mu}\nabla^2 + V(\mathbf{r},t)\right]\Psi(\mathbf{r},t) \tag{1}$$

Equation 1 describes how the quantum state of a system changes with time.
